

ONLY A FEW OUT

The Strike of the Telegraphers Was Not so Extensive as at First Reported.

LESS THAN 10 PER CENT. WENT OUT.

A Number of Those That Stopped Work Have Since Returned to Their Instruments Again.

The Road Has Secured New Men and Is Running Trains as Usual—Message to the Operators Who Remained on Duty.

Washington, April 14.—Reports received here by Mr. Cannon showed that in all 152 operators had quit work. Many of them, it was stated, had returned to their keys. About 1,400 telegraphers in all are employed by the Southern Railroad Co. The places of those who have quit work have been filled, in part at least, says Mr. Cannon, by men from the clerical force who formerly worked at the key, but had been promoted to higher positions.

Mr. Cannon characterized as absurd the reports coming from the headquarters of the strikers declaring the strike to be a complete success and asserting that the business on the Southern road was paralyzed. Only in one instance, he said, had there been any great delay to the service, and that was in the case of a train which reached its destination at Alto, 100 miles north of Atlanta, just after the strike had occurred. This caused a delay of about four hours and incidentally prevented the prompt movement of other trains whose arrivals and departures from various stations were necessary to be effected by it. Other delays less serious in consequence had been occasioned by the strike and also by the failure of connections from other railroads to arrive on time.

Picking up some memorandum sheets on his desk containing reports from the railroad officials, Mr. Cannon said that on the Ansonia division of 450 miles, employing 97 men, only 17 had struck, on the Memphis, the North Alabama and on the Danville divisions none had deserted; on the Richmond division one had gone out; on the Norfolk division of 600 miles, employing 125 men, 23 had left their places, and on the Washington division 12 men went out, some of whom had returned to their posts. He declared, including employees at relay offices whose services were not missed so greatly as had they occurred at end points.

Mr. Cannon sent the following general message, addressed to all the telegraph operators in the employ of the company: "Our experience confirms our confidence in our telegraph department. Your demonstration of loyalty and devotion to duty is specially gratifying and will not be lost sight of. You will be pleased to know that the total number that went out is less than ten per cent. of the telegraph force."

CONFLICTING STATEMENTS.

Railroad Officials Say There Is No Inconvenience, but Operators Say Differently.

Birmingham, Ala., April 14.—There is little change in the telegraphers' strike on the Southern system, Superintendent Wickersham, of the Alabama Great Southern railway, which experienced considerable trouble last night, says that all the places of the strikers have been filled and that all trains are being handled without delay.

On the other hand, the telegraphers say that other men have joined the strikers and some of the new men sent out by the railroad have been returned to the city, stating that they went to work under a wrong impression. The first feeling of sympathy was expressed at Blocton, a coal-mining town near here, where the union miners ran the new operator out of town.

Running With Little Delay.

Chattanooga, Tenn., April 14.—Passengers were running on the Southern, Alabama Great Southern and the Memphis divisions of the Southern railway with but little delay. The companies created by strikers in this city were filled by men in the freight office who were formerly telegraphers. The officials of the Southern say that within 24 hours they will have all trains running regularly, both freight and passenger.

More Men May Go Out.

Knoxville, Tenn., April 14.—Telegraph operators continue to walk out on the Knoxville division of the Southern railway. Twenty-nine are now out. Superintendent Ewig states that all but two telegraphers have been called. The indications appear to be that more men may go out. The railroad officials claim that traffic has not been interfered with.

Volunteer Crew for the Road.

Washington, April 14.—Now that the railroad has become a naval vessel, under the terms of the contract the government must provide within a reasonable time to provide a commander and crew for her. Notwithstanding the novelty of the task and the element of the railroad to be involved, there is no lack of applicants for the first command from junior naval officers. The disposition is to rotate from ordinary duty to the post, but to give it to a volunteer.

CONFESSION OF FAITH.

The Interior, the Organ of the Presbyterian Church, Is in Favor of a Change.

Chicago, April 14.—The Interior, the Presbyterian organ, will obtain a strong editorial Monday advocating the setting aside of the confession of faith and the adoption of a short evangelical creed. Dr. Gray, the editor, who has defected Dr. Mills, repeats what he said when Dr. Mills was first attacked—that three-fourths of the ministers are in sympathy with the members of the Presbyterian church reject the clause in the confession which Hills attacked and for which was denounced by certain theologians and religious newspapers. Dr. Gray has no doubt the church will take an early vote on a new creed and that it will be carried by a large majority.

COLORADO RIVER FLOOD.

It Has Reached Wharton, Tex., and Half of That Town Is Now Under Water.

Houston, Tex., April 14.—The Colorado river, which has reached Wharton and half the town is now under water. So far there has been only one casualty, a Negro refugee being drowned trying to reach the town. The people are moving out of the bottoms and flocking to the town, driving their cattle before them. There will be some suffering because of the large number to be cared for. The loss to crops is very heavy.

The situation on Eagle Lake is also very serious, as the waters of the river have poured into the lake, and the country about it is under water.

Norfolk, Va., April 14.—Bishop Handy, the venerable presiding officer of the Virginia conference, African Methodist Episcopal church, created somewhat of a sensation by announcing that he had received letters making charges of drinking, dishonesty and immorality against some of the preachers then on the conference floor. He said that he would place the entire matter in the hands of an investigating committee, and that guilty preachers need expect no quarter.

Strikers Threaten Trouble.

New York, April 14.—Application was made to Sheriff Molloy at White Plains for 100 strikers to go to the Cornell dam to prevent the strikers there from destroying property. The strikers are said to have had threats and to have boasted of the destruction they would cause if their demands were not complied with. There are about 800 strikers in the disturbed district.

STILL HOLD OUT.

Wepener Has Not Yet Been Surrendered to the Boer Forces Surrounding It.

ENEMY'S MOVEMENTS SOUTH CHECKED.

Whether By Fighting or the Advance Headed off Lord Roberts Does Not Say in His Report.

Lines to Ladysmith Threatened, While the Inhabitants of Kimberley Fear the Boers Will Attempt Another Siege.

London, April 14.—The war office has received the following dispatch from Gen. Roberts:

"Bloemfontein, April 13, 1:50 p. m.—The enemy's movements south have been checked. Wepener is still surrounded, but the little garrison is holding out well. Troops are being moved to their assistance. The health of the troops is good and the climate perfect."

The forward movement spoken of in Lord Roberts' dispatch is taken to mean not by fighting, but by disposition to head off their advance and bar their way to vulnerable points in the line of British communications. Belief is on the way to Wepener. The Boers in Natal appear incapable of developing an aggressive movement at Grahamstag.

Lord Methuen is at Zwartkopsfontein.

RIVER NEWS.

The Bonanza for Pomeroy will pass up tonight.

A small shipment of coal left Pittsburgh yesterday.

The Lizzie Bay will pass down tomorrow from Charleston for Cincinnati.

A telephone cable 5,270 feet long has been laid across the Ohio to Louisville.

The City of Pittsburgh will be up late this afternoon for Pittsburgh from Louisville.

The Ohio is falling from Pittsburgh to below Louisville, but there is a splendid boating stage on.

The Queen City, with a nice list of round-trip passengers aboard, will pass up tonight for Pittsburgh.

The steamer Lexington, which sunk several days ago in the Kanawha, has been raised, and is now on the Pt. Pleasant docks.

The Bay Brothers have sued the Cincinnati, Portsmouth, Big Sandy and Pomeroy Packet Company for \$5,000, last payment on a debt that Company owes plaintiffs.

Reports from down the river are to the effect that coal for fuel for steamboats is even scarcer down the river than it is above here. Steamboatmen, both from packets and towboats, say they are having all kinds of trouble to get fuel, and when they do get it the prices are fearfully high. Ten cents a bushel is an ordinary price for fuel at many points. Fuel for steam purposes in Mayville is almost entirely out, and when you do get slack you have to pay anywhere from 50 to 75 per bushel.

The pilots on the Joe Walton and H. M. Stanley were suspended for thirty days by the Inspectors at Cincinnati. Albert R. Mackey, master and pilot of the Walton, was suspended for admitting that he was negligently navigating his steamer after passing signals had been given, answered and understood, when he could not see the approaching boat, Stanley, Lucien E. Bowen, the pilot and master of the Stanley, which was ascending, was suspended for admitting a violation in that he did not stop and back his steamer until headway was fully checked when the danger signal was given by the Walton.

John R. Ryan, manager of the Alabama Block Coal Company with headquarters at New Orleans, is in Cincinnati, it is said, to buy coal. His concern is sending a thousand tons of coal into New Orleans every day, but he says there is every prospect of a coal famine in New Orleans next fall unless the river remains navigable for coal crafts all summer. He says the Pittsburgh combine has only 400,000 tons of coal at New Orleans or in transit, and that the planters will take all of this. The seagoing vessels are now taking 600 tons a month, exclusive of what the great railroads and the city itself need.

DR. BELL'S PINE-TAR-HONEY

CURES COUGHS

Could Not Talk.

Mrs. Smith Woodridge, of this place, who was so afflicted with her throat for over two years that she could not speak above a whisper, after she used the first bottle of Dr. Bell's Pine-Tar-Honey, could talk as well as ever, and the case is such a wonderful cure that her neighbors come in to see her for themselves, and are astonished to hear her talk.

D. WILSON & SON, Druggists, Rimble, Ky.

Hon. Jerry M. Porter.

I write this letter because I believe you have made a discovery in a cough cold, throat and lung remedy that the people ought to have. I refer to Dr. Bell's Pine-Tar-Honey. I have thoroughly tested it and know its merits. It cures. Any one who ever needs a remedy of this kind should never be without Dr. Bell's Pine-Tar-Honey.

JERRY M. PORTER, Clinton, Ky.

FAIR WARNING:

DR. BELL'S PINE-TAR-HONEY

is a scientific prescription, carefully prepared from the purest and best ingredients, consequently the most costly cough medicine on the market. In buying **DR. BELL'S PINE-TAR-HONEY** you get as big a bottle and more doses for 25 cents than you do of any other, but the druggist's profit is less.

Therefore some druggists are cunningly persuading their customers to buy that which to them means greater profit.

DON'T YOU DO IT. DEMAND

DR. BELL'S PINE-TAR-HONEY and take no substitute.
